TONDELAYO

Last Updated: 30 December 2003

Welcome to the Tondelayo Web Site. The site is composed of 'stuff' from the voyage of U.S. Sailing Vessel [Tondelayo](#) sailed by Andrew Cleveland.

Latest News: Hello All. Happy New Year!!! Well since I've been getting a lot of requests about the web site, I figured I ought to do a little update, so here you go. This one is light on reading material and heavy on the pics, just the way you like it!!! Also, I fixed some of the older stuff that was not working, so check that out was well.

So, the status today is: Tondelayo is "On the Hard" (land) at Scarborough Marina, a short drive north of Brisbane. I have returned to Southern California (Ventura Area) to live, work, and play for a while. I have no solid plans at this time regarding Tondelayo, but I'm sure I'll figure it out eventually. Basically, the options are: 1) Go back and continue around this tiny planet we live on, 2) Return and sail home to CA via the Pacific and Alaska, or 3) Ship the boat home on a freighter. (Not Tondelayo's favorite option - she wants to keep sailing, and we all know that girls usually get what they want!)

So that's the latest.. Check out the new pics!!!

Oh, hey, I got a phone 805-509-3373, give me a call.

Crewing: Not looking for anyone until I get back to the boat, which is kinda indefinite right now.
